

2015-2016 Secure View Next Generation Grant (SVNG)

All Departments Free to Apply

Advanced Cell Phone Forensics anywhere at any time!

Grant Background: Secure View was the first mobile forensic tool on the market and is in use with the FBI, USSS, DOD and hundreds of law enforcement agencies throughout the US. This grant is intended for law enforcement agencies in need of Advanced Mobile Forensics Software. Law enforcement agencies are having trouble keeping up with the increasing amount of cases involving cell phone data. The ability to capture and analyze information such as deleted data, texts, calls and Application information from social networking sites is paramount. The Susteen Secure View Next Generation Grant gives law enforcement agencies the ability to acquire Next Generation mobile forensics software at steeply discounted prices using matching funds. This new grant for 2015 includes all new pincode/passcode breaking capabilities for both Androids and iPhones.

Need:

- Qualified Agency shall have a need for mobile forensic software.
- Agency should have one employee who can attend a webinar (at no cost) on proper software usage.
- Qualified Agency should have more than 40 sworn officers.
- Qualified Agency should serve a population of over 12,000 residents.
- If the above are not met, agency may still apply and will be considered.

Description of Project:

- **Goals:** The Susteen Mobile Forensics Grant should be used by law enforcement agencies to help build better cases and increase conviction rates. This should be a benefit to the community that they serve.
- **Objectives:** The grant's objective is to allow law enforcement agencies access to Next Generation cell phone forensics tools that can be used quickly. Includes advanced analytics for current forensics software users. Law Enforcement agencies will be better equipped to handle the increasing amount of cases involving cell phone data.
- **Process:** Return application below and allocate matching funds. Grants are available on an immediate needs basis. **Grant is non-competitive as it is first come, first serve.**
- **Outcome:** This grant will provide **up to 320** law enforcement agencies the ability to obtain Next-Generation mobile-forensic software at a steeply discounted rate.
- **Integration:** The Secure View Next-Gen NUC computer complements current software in use at law enforcement agencies and will integrate current reports and data.

Description of the Product and What is Included:

- **Secure View Next-Gen NUC Computer:** The most complete tool for the cell phone forensic investigator. The Secure View NUC supports thousands of phones. Law Enforcement agencies gain case file extraction, analyzing and bookmarking in one complete package. The Secure View NUC is the only mobile forensic tool that provides 3 specific processes for examination: Acquire, Analyze, and Report. The Secure View mobile unit is pre-programmed with a gathering tool for pre-set field triage, password acquisition tool to unlock cell phones, advanced analytics tool and deleted data recovery.
- **Secure View 4 cell phone forensic software**
- **Add-on Modules:** svPIN, svDDR, svLOADER, svSMART
- **New for 2015:** svDetect early warning database system and svConnect feature for advanced data gathering support.
- **iPhone/Android Pincode Breaking Software:** Pincode/passcode recovery for iOS versions up to iOS 8.0*. Androids including 4.2 and higher.
- **Deleted Data Analyzer:** Advanced Deleted Data Analyzer for image dumps of cell phones with Physical Deleted Data Viewer.
- **Free Shipping**
- **Computer Kit including:** • Secure View NUC with Intel Core i5 vPro Processor • Windows® 7 Ready • Secure View 4 Embedded Software with add-ons • Hard-sided Carrying Case

Work plan/Timeline/Conditions:

- All applications for the Susteen Mobile Forensic Field Command Grant must be submitted prior to February 15th, 2016.
- Grant is open to 320 participating agencies. Once limit is met, no further submissions will be accepted.
- If approved, matching Law Enforcement agency funds must be received by March 28th, 2016.
- Training will be scheduled once unit is received by Law Enforcement Agency and is done live, online and at no cost to the Law Enforcement Agency.

Budget:

Susteen understands that federal funds have become harder to receive. Many Law Enforcement Agencies do not have the \$15,500-\$20,000 needed to purchase multiple mobile forensic examining software suites. This grant drastically cuts down the cost of acquiring the Next-Generation Secure View Tablet Mobile Forensics Unit. The Susteen Mobile Forensics Grant will cover **60%** of the cost for departments to acquire a new Secure View NUC. The grant timeframe is set up specifically to help agencies acquire matching funds.

Item	MSRP	<u>Grant Pays</u>	Cost per Unit to Law Enforcement Agency	Amount of Units needed *Max 12 with grant pricing
Next-Gen Secure View Mobile Field Command	\$12,390	\$7,391	\$4,999	*

Application may be returned via email or mail: Approval process takes less than a week.

Name: _____ Organization _____

Address: _____

City: _____ St: _____ Zip: _____

Phone: _____ Email: _____

Amount of Sworn full time officers: _____ Current mobile forensic software used: _____

Estimated Volume of phone extractions per month: _____

Has an officer been formally trained on mobile forensic software before? _____ Y/N

Do you currently have Secure View Software or have used it in the past? _____ Y/N

Prepared by: _____ Rank: _____ Date: _____

Population of city/area served: _____

Signature: _____
